Website Design Case Study – RedneckCommunity.com

Internet Business Ideas: Every internet business is different and I know most people have been dreaming about starting their own business for ever. I would like to know, in your own words, what your idea was for www.RedneckCommunity.com

Well, I noticed that there were a lot of Rednecks around and no place on the internet for them to go and meet each other, share pictures, videos and buy stuff. So, that's how the Redneck Community got started.

Why you decided to start your own internet business: I would like to know / share with others why you decided to start this internet business. Everyone has a different story and I would like to know yours.

I want to work from home so I can stay home with the kids. Internet businesses are the only businesses that continue to grow in a slow economy. It's just fun to work for yourself!

Why you decided to go with WebBizIdeas.com: We are very interested in knowing why you chose our company. Whether you just liked our portfolio or just liked hearing our voices over the phone, we would like to know 😊

I saw an ad in a magazine and decided to go online and check it out. You guys called right away and had other good ideas to add to ones I already had. You were very knowledgeable and patient with me, since I didn't know a whole lot about computers and internet. You also returned phone calls and emails when you said you would, which for a small town girl like myself, say a lot about a person and a company.

Your Website Design: Can you tell customers about how / why you had us design your website the way it is. Please let us know in your own words how WebBizIdeas.com designed your site. Are you happy with it, do you have future plans to develop it more?

I just told you what I had in mind and you guys did all the rest! I knew what Rednecks might like and you guys knew how to make it look good. I think the website looks fantastic! I can't ever see the need to stop developing new things.

Who is your target audience? Can you tell us more about your target audience? This will be very helpful for you in the search engines if you include 'keywords' that you are trying to obtain listings for in the search engines.

Our audience is people of all ages, race and culture. Being a redneck has more to do with the way you live than financial status or number of teeth. Our audience loves anything outdoors. Muddin, hunting, fishing, 4-wheeling, dogs, driving trucks and just all around raising cane.

Overall Feedback: Can you give us your overall feedback on how you liked working with WebBizIdeas.com and your project manager?

I love working with yall! You have great ideas and plenty of patience for people that are technically challenged. I also really appreciate your enthusiasm for the project and helping to keep the budget reasonable. I can't imagine working with anyone else.
